DIYUKSH

Tech house with an industrial spine. Acid lines, hardgroove drums and the odd garage swing — built for rooms that want to move, not watch. Based in Mumbai, playing anywhere.

Biography

DIYUKSH is a DJ and producer based in Mumbai, India. His sets run tech house through acid and hardgroove, with UK garage swing and the occasional left turn — read off the room, not a script. Alongside club nights, brand launches and day parties, he flips and edits records for his own sets. Available for bookings across India and internationally.

Kind words

"He know what he doing, had one of the best block parties for my brand."

ADITH — OWNER · (NVMBR) — FIRST FLOOR, JUHU

"New kid on the block with a very curious and open mind ready to explore sonic spaces and their contexts with a keen ear to keep the room fun and groovy"
